Field Guide Activity

Making your very own "Mini Field Guide for Birds" is as easy as 1, 2, 3, 4!

1. Carefully tear out the "Mini Field Guide for Birds" on the next page. 2. Fold it in half lengthwise. 3. Fold it in half again, this time crosswise. 4. Fold it in half crosswise one more time. Now use your field guide to identify birds and fill in the chart below.

Bird's name	Where did you see it?	What was it doing?	What kind of feet does it have?	What kind of beak does it have?	What do you think it eats?

Now follow the directions above to make your "Mini Field Guide to Animal Tracks" and check off the tracks you find.

Squirrel Cottontail rabbit Duck Opossum Great blue heron Raccoon Mourning dove Coyote

Instructions for Folding

1. Fold the sheet in half crosswise, so the text and pictures appear on the outside.

7. Refold the sheet in half, this time lengthwise. Stand the sheet up on the table so the pictures appear right side up, as seen in the diagram.

2. Fold up ends separately to form a "W" shape.

3. Next, fold it in half again to form a small rectangle. Then unfold this last fold, and fold it again back the opposite way, making good, hard creases on each side.

8. The part you cut with the scissors should open up and form a diamond. Grab the two outside panels and push inward until you form a four-paneled revolving door.

4. Unfold back to step #1, where the sheet is only folded in half.

5. Place flat on the table with folded edge closest to you and cut along the middle fold through both sides to the center as seen in the diagram.

9. Finally, fold all the pages together to form a small book. Make sure cover is on the front.

6. Unfold the sheet entirely, with the text and pictures facing up and with the short edge of the sheet closest to you.

10. Make good, hard creases on all sides and **YOU ARE DONE.**
